Why Modern Veterinary Clinics Run on BriskVet

Replace disconnected paper registers, manual prescriptions, and generic retail billing with unified transactional ledgers built around veterinary clinical workflows.

1. Strict Multi-Tenant Clinic Partitioning

Each clinic receives isolated records, subdomain routing (yourclinic.briskvet.com), session binding, and full JSON/file backups with zero cross-clinic mixing.

2. Dedicated Role-Scoped Workspaces

Separate focused workflows for Clinic Administrators, Veterinarians, Receptionists, and Pharmacy Counters with doctor & seat governance.

3. Real Pharmacy POS & Batch COGS P&L

Deducts inventory atomically at sale, protects internal clinic supplies, reverses unpaid cancellations once, and reports true gross & net P&L.

4. Branded Reports & WhatsApp Delivery

Generate structured letterhead HTML/PDF medical summaries and settlement receipts secured with clinic-bound HMAC file URLs.

BriskVet Clinic OS · Live Clinical & POS Ledger View — BRANCH-01 · ISOLATED

Token	Patient / Guardian	Doctor	Status
Q-104	**Bruno** · Golden Retriever	Dr. Hamza	In Exam
Q-105	**Milo** · Persian Cat	Dr. Ayesha	Lab Ready
Q-106	**Shadow** · German Shepherd	Dr. Hamza	Rx Settled

PHARMACY POS & FIFO COGS
Real-Time Gross Margin & Net P&L

ADVANCE CREDIT & SPLIT PAYMENTS
Both Receipts Preserved · Stale Guarded

Unified Four-Step Practice Cycle

STEP 01
Clinic Intake
Register pet, guardian CNIC & advance deposits.

STEP 02
Queue Routing
Assign token directly to waiting veterinarian.

STEP 03
SOAP & Rx
Log vitals, lab uploads & stocked prescriptions.

STEP 04
POS & Recall
Dispense stock, settle invoice & track P&L.
